

CoolX PRO-7 & PRO-S

Bonding sealant & silicone sealant

Discover our 2 newest CoolX sealants. CoolX PRO-7 is a super strong, permanently elastic, and fast-curing adhesive sealant suitable for bonding, assembling, and sealing almost all building materials on nearly all surfaces (porous and non-porous). CoolX PRO-S is a permanently elastic, neutral-curing, single-component silicone sealant with fast skin formation. Both products are suitable for construction, interior finishing, the refrigeration industry, isothermal constructions, and sanitary spaces.
