| RBT-2500 | Pipecut mini - duracut uni saw blade - 18v/4ah cas - charger EU included |

## BRAND

Rothenberger

## PRODUCT DESCRIPTION

The Pipecut Mini pipe saw is a real multitalent: it cuts copper, steel, stainless steel, plastic, multilayer composite pipes and panels, threaded rods, sheetrock panels, GIS rails—anything plumbers need for new installations in shell construction and industry
The Pipecut Mini is made for stationary use in the workshop as well as mobile use at the construction site
It only needs a contact surface to cut all kinds of material—larger pipe diameters are rotated in a ball bearing during cutting
Powered by a CAS battery which can also be used to operate another 200 machines from 20 manufacturers
Copper, plastic, C-steel, cast iron or stainless steel can be cut up to a pipe diameter of 110 mm
Cut mounting rails or threaded bolts -easy and fast
Transform the Pipecut Mini into a circular saw, into a plunge saw or into a cross-cutting saw

## SPECIFICATIONS

| | |
| --- | --- |
| Length (mm) | 596 |
| Width (mm) | 396 |
| Height (mm) | 276 |
| Net weight (kg) | 6.4 |
| Color | Undefined |
