

Glass door systems & FIFO racks

Energy prices are making everyone think about how we can save on our energy bills. For an energy-efficient presentation of their FMCG goods, department stores, catering wholesalers, self-service shops, tank shops, ... can rely on the functional Cisaplast glass door systems. In combination with the CoolX FIFO shelving systems, they ensure an attractive and efficient presentation of cold drinks and food.

Reasons to choose glass door systems with FIFO racks :

- ✓ *suitable for positive or negative temperatures*
- ✓ *crystal-clear presentation*
- ✓ *easy filling and removal*
- ✓ *perfect rotation of drinks and food*
- ✓ *smart & energy-efficient*

Cisaplast frames with Full Vision glassdoors

The Full Vision glass doors are specially designed for optimal sales and visibility. Thanks to a transparent spacer, this innovation ensures perfect product display. Supplied in modules with a standard width of 1250 mm with one right and one left door.

- double glazing with argon gas (increased insulation value)
- ultra-strong, transparent glued handle
- energy-efficient LED lighting; Philips LED InteGrade
- perfectly self-closing, in speed adjustable doors
- black (RAL 9004) anodised built-in frame
- only for positive temperatures (FVV)
- on demand : execution with single left or right door
- option : 2 L side profiles for a perfect side finish (FFV-9900 for type 1880 / FFV-9901 for type 2055)

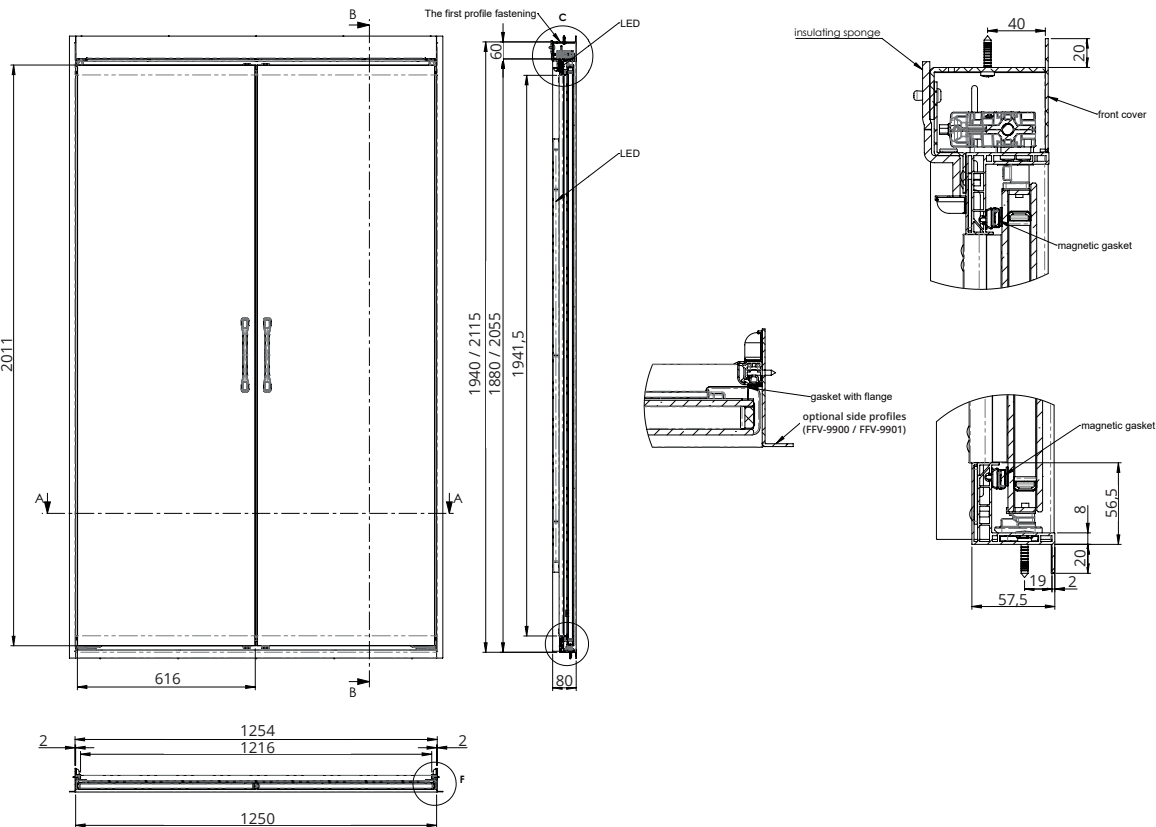

- ✓ displayed products are 100% visible
- ✓ transparent spacer between the glass
- ✓ transparent handle

CoolX FIFO racks for standard glassdoors

The FIFO rack system ensures perfect presentation and rotation of chilled drinks and food. Behind fixed or sliding glass doors; in bottle, can or pack ... it allows you to present in an attractive and professional way with high visibility to the customer !

- basic and extension racks, with universal uprights
- width dimensions : 660 mm (26"), 760 mm (30") and 1250 mm (for Full Vision glasdeuren)
- +/- RAL 9010 white or black
- steel with unique coating : protected against wear and tear and corrosion + extra glide
- 3 shelves, fixed with closed plate, with conveyors or classic wire shelves

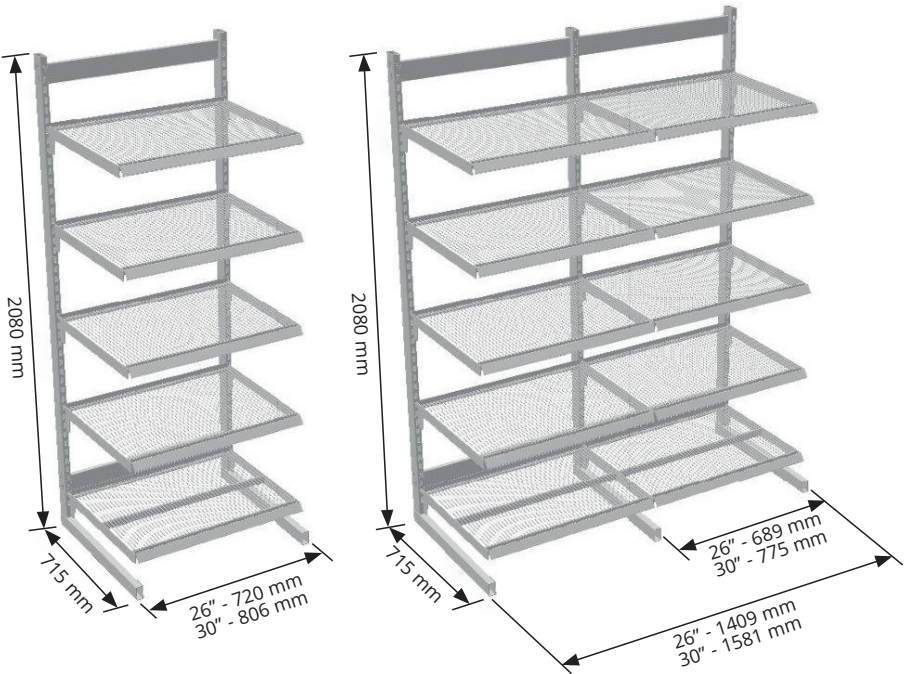

Accessories such as product separations, price rails, plexi fronts and chutes available.

COOLX

CoolX FIFO racks for standard glassdoors

FIFO racks are used intensively on a daily basis. This both during removal and replenishment of products. Thanks to the special epoxy coating, Linum FIFO racks are protected against wear and tear and corrosion. Moreover, the unique coating also provides extra glide. The shelves have a max. load capacity of 50 kg or 90 kg (reinforced).

1 basic rack :

- ✓ 2 uprights in L-shape with adjustable feet and bottom fixation plates
- ✓ 2 crossbars (660 or 760 mm)
- ✓ 5 fixed (reinforced) shelves (660 or 760 mm)
- ✓ +/- 8 separations per shelf

1 extension rack :

- ✓ 1 upright in L-shape with adjustable feet and bottom fixation plates
- ✓ 2 crossbars (660 or 760 mm)
- ✓ 5 fixed (reinforced) shelves (660 or 760 mm)
- ✓ +/- 8 separations per shelf

CoolX FIFO racks for standard glassdoors

For optimal cooling of products, there are the fixed wire shelves. Here, the reinforced versions with cross-mounting are ideal for bottles. Fixed shelves with rollers ensure that cans, beverage cartons, ... slide through without any problem, while fixed shelves with closed surfaces ensure that all products, including bottles with special bottoms, are stored and presented in an upright position.

COOLX

CoolX FIFO racks for Full Vision glassdoors

For an optimal combination with the Cisaplast Full Vision glassdoors, the FIFO racks were developed to fit the 1250 mm modules. The profile of the upright was reinforced to guarantee a higher load capacity. The shelves have a max. load capacity of 80 kg or 120 kg (reinforced). Only available in black.

1 basic rack :

- ✓ 2 uprights in L-shape with adjustable feet and bottom fixation plates
- ✓ 2 crossbars (1250 mm)
- ✓ 5 fixed (reinforced) shelves
- ✓ 16 separations per shelf

1 extension rack :

- ✓ 1 upright in L-shape with adjustable feet and bottom fixation plates
- ✓ 2 crossbars (1250 mm)
- ✓ 5 fixed (reinforced) shelves
- ✓ 16 separations per shelf
