ARTICLE CODE	DESCRIPTION
ADP-1500	Speedi-Duct cable duct - 105x75 mm - 2mtr/lng

BRAND

SpeediDuct

PRODUCT DESCRIPTION

Speedi-Duct duct 105x65 for cooling and electrical lines
Aesthetic, stylish in any interior
Durable material (extruded PVC)
Thanks to unique rail guide, the fixation clip allows you to strap and keep the line sets in place
UV-stabilized
Colorfast and shockproof
Easy and quick installation
Length 2000 mm
Fire resistant classification M1
Accessories always to screw for optimum stability
Temperature resistance: up to max. 65°C
We advise against using dark colors, such as black and anthracite, on facades exposed to prolonged direct sunlight, particularly on south- and west-facing facades. Due to higher heat absorption, these colors can heat up beyond the maximum permissible temperature
