ARTICLE CODE	DESCRIPTION
SFM-1100	Soudafoam Iso + Poly MAXTWO XL

BRAND

Soudal

PRODUCT DESCRIPTION

High-quality professional two-component polyurethane foam
XL kit 40 kg in 2 separate boxes
1 isocyanate cylinder + 1 polyol cylinder
1430 litres of foam
Density: 28 kg/m^3
Gel time: 30 sec
Excellent adhesion to most substrates
High thermal insulation value
Very high compressive strength: approx. 100 kPa (EN 826)
Airtight seal for more efficient energy consumption
Good sound reduction for extra comfort
Cures in a few minutes
Does not shrink or expand after curing
Empty and depressurised Soudafoam MaxTwo cylinders can be returned to us upon prior notification, subject to a fixed handling fee (transport costs are borne by the customer). Together with Soudal, we ensure their proper and environmentally responsible recycling. Please contact us for details of the return procedure.
